RESOLUTION ON THE TRIENNIAL REPORT ON THE ADMINISTRATION OF THE REGISTRATION DEPARTMENT FOR THE YEARS 1917, 1918 AND 1919.

GOVERNMENT OF BENGAL.

REVENUE DEPARTMENT.

Registration Branch.

DARJEELING, THE 5TH JUNE 1920.

RESOLUTION—No. 1078T.R.

READ—

The triennial report on the administration of the Registration Department for the years 1917, 1918 and 1919.

THE charge of the department was held by the late Inspector-General of Registration, Rai P. N. Mukharji Bahadur, I.S.O., till his retirement on 21st February 1919. His successor the Hon'ble Khan Bahadur Amin-ul-Islam held charge for the rest of the triennial period under review.

2. The most important event of the period was the introduction from May 1919, as an experimental measure, of the system of departmental registrars, already in force in Madras, in a few districts in Bengal. District officers in these districts have been relieved of all their legal and routine duties in connection with registration. The new district registrars are directly under the Inspector-General of Registration. They perform the ordinary duties which they have hitherto performed as district sub-registrars as well as those prescribed for the district registrars, and receive a duty allowance of Rs. 100 per mensem in addition to their pay as district sub-registrars. So far as it has gone, the experiment promises well. It is, however, too soon to make a definite pronouncement as to its success or failure; much also depends upon the personnel of the existing staff. Among other important reforms the following may be noted. The power to transfer and grant leave to sub-registrars has been delegated to the Inspector-General of Registration; and the rules regarding the recruitment of sub-registrars have been modified so as to eliminate direct appointments by Government except in exceptional cases.

3. An improvement of pay of practically the whole staff of the department was effected either during, or at the end of, the period under review. A scheme for the revision of the pay and strength of the ministerial establishment of district headquarters and rural registration offices was partially introduced in 1919 by granting clerks and muharrirs an immediate increase of 20 per cent. on their pay. Full effect has now been given to the scheme from 1st March 1920. The 4th grade on Rs. 175 per mensem in the cadre of district sub-registrars was eliminated, and the total number of appointments has been equally distributed among the remaining three grades on Rs. 200, Rs. 225 and Rs. 250 per mensem. A readjustment of the cadre of sub-registrars has been sanctioned with a view to secure an even flow of promotion throughout the four grades into which the sub-registrars are distributed at present. Sanction has also been accorded to the raising of the pay of probationers from Rs. 30 to Rs. 40 per mensem. A total annual additional expenditure of Rs. 2,12,773 has been incurred in the improvement of pay.

4. The rigid economy exercised on account of the war was continued during the triennium and prevented the adoption of the progressive policy already laid down for the opening of new offices, the construction of buildings for the offices and residences of sub-registrars, and the proper equipment of offices in furniture and iron-safes. The cyclone of September 1919 unroofed many of the registration offices in the affected area. The majority of these were located in unsatisfactory rented buildings, but no material damage occurred except that the records were drenched by the heavy rain. It has, however, emphasised the necessity of replacing the rented houses by substantial Government buildings.

The Mymensingh Registration office was burnt down by an accidental fire on the night of 14th April 1918. All the old records from 1793 consisting of about 35,000 volumes together with the current records were completely lost. Fortunately the gravity of the loss was lessened by the existence of a record-of-rights, which has just been completed for that district, in which the relations between landlord and tenant have been clearly defined.

5. The ordinary work of the department showed practically neither an increase nor a decrease for the whole triennium. It fell slightly in 1917, very largely in 1918, but rose again considerably in 1919. The number of offices open at the end of the triennium under review was 408 against 403 at its commencement. As compared with the preceding triennium, compulsory registrations affecting immoveable property increased by 2·9 per cent., and optional registrations decreased by 1·8 per cent. The total number of registrations under all heads was 4,913,594 in the period under review, showing the remarkably small difference of a decrease of only 216 on the number in the preceding triennium. The receipts of the department

during the past three years amounted to nearly Rs. 62¼ lakhs and the expenditure to Rs. 33 lakhs, leaving a surplus of over Rs. 29 lakhs. As compared with the previous triennium the receipts increased by 5·2 per cent., the expenditure by 4·5 per cent., and the surplus by 6·2 per cent.

6. The marked increase in the year 1919, both in the number of, and receipts from, registrations over similar statistics for the year 1918 is attributed generally to high prices and particularly to famine in Bankura, distress in Brahmanbaria, the cyclone in East Bengal, the operations of the Calcutta Improvement Trust, and to speculation in land in Calcutta and in the 24-Parganas. On the other hand, the combined effect of these causes has been so far little more than to restore the normal conditions of the department. It was 1918 which was the abnormal year. Numbers and receipts fell in that year to Rs. $13\frac{9}{10}$ and Rs. $17\frac{8}{10}$ lakhs from Rs. $16\frac{9}{10}$ and Rs. $20\frac{6}{10}$ lakhs, respectively, in 1917 against Rs. $17\frac{7}{10}$ and Rs. $21\frac{4}{10}$ lakhs which would have been normally expected in 1918. It is remarkable that the decrease in 1918, as well as the increase in 1919, has been ascribed to adverse economic factors. This is an illustration of the fact mentioned in the resolution on the working of the previous triennium that the reasons for changes are often obscure. But it is, in the opinion of Government, more than probable that the decrease in 1918 was also largely due to the bountiful harvest which improved the material condition of agriculturists during that year.

7. The total number of appeals under section 72 and applications under section 73 decreased from 5,497 to 5,113. The number of prosecutions under section 83 for making a false denial of execution or false personation and its abetment rose from 86 to 202. No less than 134 cases were instituted in 1919 out of the 202 cases, and 132 cases were disposed of, of which 106 cases ended in conviction. The rules under the Registration Act were amended in 1918 so as to provide that thumb impressions should be taken of illiterate identifiers.

8. The special thanks of the Governor in Council are due to the late Inspector-General of Registration, Rai P. N. Mukharji Bahadur, I.S.O., for his able and efficient administration of the department and for his willing service and valuable assistance during the first two years of the triennium. His thanks are also due to the Hon'ble Khan Bahadur Amin-ul-Islam for his careful and energetic administration of the department since he has assumed the charge.

ORDER.—Ordered that a copy of this resolution be forwarded to the Inspector-General of Registration, Bengal, for information.

Ordered also that a copy of the resolution together with the report be submitted to the Government of India in the Home Department.

Ordered also that a copy of the resolution be forwarded to Rai P. N. Mukharji Bahadur, I.S.O., for his information.

By order of the Governor in Council,

M. C. McALPIN,

RESOLUTION ON THE REPORT ON THE ADMINISTRATION OF THE JAIL DEPARTMENT IN THE PRESIDENCY OF BENGAL FOR THE YEAR 1919.

GOVERNMENT OF BENGAL.

POLITICAL DEPARTMENT.

CALCUTTA, THE 7TH JUNE 1920.

RESOLUTION—No. 2378P.J.

READ—

The Report on the Administration of the Jail Department in the Presidency of Bengal for the year 1919.

READ ALSO—

The Reports for the years 1918 and 1917 and the resolutions of Government recorded thereon.

THE appointment of the Committee to investigate the system of prison administration in India has naturally overshadowed the working of the jails in Bengal during the past year, and the considered opinion of the Committee on various pending questions is awaited with interest. Any large reforms that may be advocated will, to some extent at least, be dependent on the suitability of the existing jail buildings for their introduction, and the chief defect in Bengal, viz., the overcrowded condition of most of the jails throughout the year, will still continue until more funds can be devoted to the enlargement of existing structures. Admissions in the past year were 4,905 more than in the preceding year, but the situation was relieved by the release of 2,338 prisoners on the occasion of the Peace celebration, and the grant of partial remissions of sentence to 8,000 others; this resulted in the average daily population being reduced to 15,887, or 874 less than in the preceding year.

2. It is satisfactory that the number of jail offences further decreased as compared with the previous year, the ratio of total punishments to daily population being 135 as against 142 in 1918. The penalty of whipping was inflicted in 40 cases, as compared with 42 in the previous year.

3. The year was not a healthy one, though the number of admissions to hospital decreased, and the daily average number of sick was 878 against 963 in the previous year, the death-rate rose from 21·3 to 22·9, the total number of deaths being 365 against 358 or higher than in any of the previous four years. The rise, however, corresponds to a similar rise in the case of the general population, and was largely due to the prevalence of influenza and cholera. Apart from epidemics, scarcity and hardships resulting from the cyclone in Eastern Bengal lowered the stamina of new admissions. Influenza appeared again in an epidemic form, and altogether 2,022 cases occurred, of which 67 proved fatal. The Presidency, Berhampore, Comilla, Barisal and Dacca jails had most cases, although otherwise the Berhampore and Comilla jails showed excellent records. The most unhealthy jails were Burdwan, Khulna, Mymensingh and Malda, and the healthiest Berhampore and Comilla.

4. The popularity of the wheat scale dietary continues. The use of wheat at one daily meal in lieu of rice has extended and considerably more than half the prisoners have now voluntarily adopted this diet. Statistics show that the incidence of bowel complaints is apparently less among them than among those on the ordinary rice diet. The average cost per prisoner on rice diet was Rs. 4-8-7, and on wheat scale diet Rs. 5-2-10.

5. The Juvenile jail at Alipore continues to do good work. The star class system instituted during the last few years has worked fairly well. The school which was started experimentally for the benefit of the inmates of the

jail having proved a success, has been made permanent, and hopeful results in physical and moral training were obtained, jail offences are steadily decreasing. The "Prisoners' Aid Society" and the "After-care Association" whose object is to provide work for juvenile prisoners on release are rendering useful assistance, but there is still much scope for better organisation and more practical sympathy from the public. The value of the quinine sold by the jail during the year amounted to over Rs. 5 lakhs, the profit on which exceeded Rs. 2 lakhs.

6. The outturn of jail manufactures exceeded that of the previous year, and the net cash earnings rose from Rs. 84,589 in the previous year to Rs. 5,31,142 in the year under report. There was a decrease in the outturn and profit of the Presidency Jail owing to the decrease in orders from Government departments. The Midnapore Central Jail was hampered in manufacturing uniforms for the Police Department by delay in receiving materials from the Munitions Board. The manufacture of woollen blankets in the Rajshahi Jail was limited so as not to interfere with the Dacca blanket factory which had ceased to supply blankets to the Military Department.

7. The conduct of the warder staff continued to be satisfactory. There was a slight increase in the number of departmental punishments. Fifty-eight warders resigned against 82 in the previous year. The decrease is satisfactory and is probably due to the sanction given by the Secretary of State to pensions for the warder establishment, but the number of resignations is still high and considerable difficulty is met in recruiting. The improvement in recent years on the conditions of service of the warders appears to have been overtaken by the rise in the cost of living. A scheme for improving the conditions of the jailor service was submitted to the Secretary of State in December 1919, and has been sanctioned since the close of the year.

8. The thanks of the Government are due to Lieutenant-Colonel Thompson for his efficient management of the department. His Excellency in Council has read with pleasure the list of officers who have been commended by the Inspector-General.

ORDER.—Ordered that a copy of this resolution be forwarded to the Inspector-General of Prisons, Bengal, for information.

Ordered that a copy of this resolution and a copy of the report be submitted to the Government of India in the Home Department.

Ordered also that the resolution be published in the *Calcutta Gazette*.

FOREIGN TRADE.

The 5th June 1920.

No. 2652.—The following extract from the Board of Trade Journal, dated the 6th May 1920, is re-published for general information.

IMPORT PROHIBITIONS.

The following is a translation of the French Presidential Decree of 23rd April (published in the "Journal Officiel" on 28th April), prohibiting the importation into France and Algeria of a large number of "luxury" and "fancy" articles and products the use of which is optional. Prefixed to the Decree is a Ministerial Report, in which the circumstances which necessitate the measure are explained.

MINISTERIAL REPORT.

Paris, 23rd April 1920.

An examination of the foreign trades returns of France shows that for the year 1919, the value of imports had risen to almost 30,000,000,000 francs, while the value of the exports was less than 9,000,000,000 francs, that is, only 29 per cent. of the imports. It is universally admitted that this enormous inequality between our purchases and our sales is the chief cause of the fall in the French exchange, and consequently of the increase in the cost of living.

An analysis of the foreign trade figures shows that in 1919, as compared with 1913, imports of food-stuffs and of manufactured articles increased by 26 and 18 per cent. respectively, in weight, and by 374 and 378 per cent. respectively in value. As regards raw materials, the weight of imports was 20 per cent. less than in 1913, but 167 per cent. more in value.

The inflation of values is, however, seen even more strikingly in the case of exports. As compared with 1913, the tonnage of our exports in 1919 decreased by 74 per cent, that is, by three-quarters, but nevertheless, the value of the 1919 exports (8,713,000,000 francs) exceeded the value of the 1913 exports (6,880,000,000 francs) by 1,833,000,000 francs, or 26 per cent.

Our trade balance has not improved appreciably during the first three months of 1920, as compared with the corresponding period of 1919. It is true that the value of exports shows an increase of 186½ per cent. (3,384,000,000 francs, as against 1,181,000,000), but this increase does not go far towards restoring the pre-war situation, as the weight of goods exported (2,379,000 tons) was only half that of the first quarter of 1913 (4,750,000 tons); on the other hand imports have increased by a further 22·45 per cent. (7,767,000,000 francs, as against 6,343,000,000 francs); so that the difference between imports and exports during the three months in question reaches the considerable figure of 4,383,000,000 francs, or 129½ per cent. The result is that the prices of goods continue to rise, and that our exchange is in a worse plight than ever before

As, unfortunately, a sufficient revival of our export trade cannot be looked for while our national production remains so low, the only remedy for this disastrous situation lies in practising the most rigorous economy by limiting both our internal expenses and our foreign purchases to an absolute minimum. But it is obvious that in this matter persuasion alone would be powerless.

Consequently, and in conformity with the statement made, and approved by the Chamber of Deputies, during the discussion on the Bill for providing new sources of revenue, the Government deem it imperative forthwith to impose most stringent restrictions on import.

Other countries whose economic situation is less precarious than that of France have already taken this step. In any case, for our part we realise that the question is vital, for if we continue heedlessly to import unnecessary goods we shall, and that before long, find that we can no longer obtain abroad credits necessary for the purchase of the food-stuffs and raw materials of which we are in absolute need. It is unnecessary to emphasise how terrible the economic and social consequences of such a position would be.

The investigations in regard to this matter which have been made by the Government Departments concerned point to the necessity of prohibiting the import of a whole series of "luxury" or "fancy" articles and products which are not indispensable, so that such articles and products shall be imported only on condition that they are re-exported within a fixed period after having been worked up or repacked in France.

We have the honour to submit herewith the Decree drawn up to give effect to this prohibition, and beg you to be good enough, should you approve, to affix your signature.

PART VII.

THE FINAL DECISION OF DOUBTS AND DISPUTES AS TO THE VALIDITY OF AN ELECTION.

Definitions.

26. In this Part and in Schedule IV, unless there is anything repugnant in the subject or context,—

(*a*) "agent" includes an election agent and any person who is held by Commissioners to have acted as an agent in connection with an election with the knowledge or consent of the candidate;

(*b*) "candidate" means a person who has been nominated as a candidate at any election or who claims that he has been so nominated or that this nomination has been improperly refused, and includes a person who, when an election is in contemplation, holds himself out as a prospective candidate at such election, provided that he is subsequently nominated as a candidate at such election; and

(*c*) "returned candidate" means a candidate whose name has been published under these rules as duly elected.

The election petition.

27. No election shall be called in question except by an election petition presented in accordance with the provisions of this part.

Presentation of the petition.

28. An election petition may be presented to the Governor by any candidate or elector against any returned candidate within fourteen days from the date on which the result of the election has been published in accordance with sub-rule (*9*) of rule 12.

Contents of the petition.

29. The petition shall contain a statement in concise form of the material facts on which the petitioner relies and the particulars of any corrupt practice which he alleges and shall, where necessary, be divided into paragraphs numbered consecutively. It shall be signed by the petitioner and verified in the manner prescribed for the verification of pleadings in the Code of Civil Procedure, 1908.

Against whom it may be presented.

30. The petitioner may, if he so desires in addition to calling in question the election of the returned candidate, claim a declaration that he himself or any other candidate has been duly elected; in which case he shall join as respondent to his petition all other candidates who were nominated at the election.

Deposit of security.

31. At the time of presentation of the petition, the petitioner shall deposit with it the sum of one thousand rupees in cash or in Government Promissory Notes of equal value at the market rate of the day as security for the costs of the same.

Dismissal for default.

32. (1) If the provisions of rule 31 are not complied with, the Governor shall dismiss the petition.

Appointment of Commissioners.

(2) Upon compliance with the provisions of rule 31—

(*a*) the Governor shall appoint as Commissioners for the trial of the petition three persons who are, or are eligible to be appointed, Judges of a High Court, within the meaning of section 101 (*3*) of the Act, and shall appoint one of them to be the President, and thereafter all applications and proceedings in connection therewith shall be dealt with and held by such Commissioners;

(*b*) the President of the Commission so constituted shall, as soon as may be, cause a copy of the petition to be served on each respondent and to be published in the Gazette, and may call on the petitioner to execute a bond in such amount and with such sureties as he may require for the payment of any further costs. At any time within fourteen days after such publication, any other candidate shall be entitled to be joined as a respondent on giving security in a like amount and procuring the execution of a like bond.

(3) When in respect of an election in a constituency more petitions than one are presented, the Governor shall refer all such petitions to the same Commissioners, who may at their discretion inquire into the petitions either in one or in more proceedings as they shall think fit.

Inquiry by Commissioner.

33. Every election petition shall be inquired into by the Commissioners, as nearly as may be, in accordance with the procedure applicable under the Code of Civil Procedure, 1908, to the trial of suits; provided that it shall only be necessary for the Commissioners to make a memorandum of the substance of the evidence of any witness examined by them.

Place of inquiry.

34. The inquiry shall be held at such place as the Governor may appoint: provided that the Commissioners may in their discretion sit at any other place in the presidency for any part of the inquiry, and may depute any one of their number to take evidence at any place in the presidency.

Withdrawal of petition.

35. (1) No election petition shall be withdrawn without the leave of the Commissioners.

(2) If there are more petitioners than one, no application to withdraw a petition shall be made, except with the consent of all the petitioners.

(3) When an application for withdrawal is made notice thereof fixing a date for the hearing of the application shall be given to all other parties to the petition and shall be published in the Gazette.

(4) No application for withdrawal shall be granted if the Commissioners are of opinion that such application has been induced by any bargain or consideration which the Commissioners consider ought not to be allowed.

(5) If the application is granted—

(*a*) the petitioner shall be ordered to pay the costs of the respondent thereto fore incurred or such portion thereof as the Commissioners may think fit;

(*b*) such withdrawal shall be reported to the Governor, who shall publish notice thereof in the Gazette; and

(*c*) any person who might himself have been a petitioner may, within seven days of such publication, apply to be substituted as petitioner in place of the party withdrawing, and, upon compliance with the conditions of rule 31 as to security, shall be entitled to be so substituted and to continue the proceedings upon such terms as the Commissioners may think fit.

Abatement or substitution on death of petitioner.

36. (1) An election petition shall abate only on the death of a sole petitioner or of the survivor of several petitioners.

(2) Such abatement shall be reported to the Governor, who shall publish notice thereof in the Gazette.

(3) Any person who might himself have been a petitioner may, within seven days of such publication, apply to be substituted as petitioner, and, upon compliance with the conditions of rule 31 as to security, shall be entitled to be so substituted and to continue the proceedings upon such terms as the Commissioners may think fit.

Abatement or substitution on death of respondent.

37. If before the conclusion of the trial of an election petition the respondent dies or gives notice that he does not intend to oppose the petition, the Commissioners shall cause notice of such event to be published in the Gazette, and thereupon any person who might have been a petitioner may, within seven days of such publication, apply to be substituted for such respondent to oppose the petition, and shall be entitled to continue the proceedings upon such terms as the Commissioners may think fit.

Recrimination when seat claimed.

38. Where at an inquiry into an election petition any candidate, other than the returned candidate, claims the seat for himself, the returned candidate or any other party may give evidence to prove that the election of such candidate would have been void if he had been the returned candidate and a petition had been presented complaining of his election.

Attendance of Law Officers.

39. When at an inquiry into an election petition the Commissioners so order, the Advocate General or some person acting under his instructions shall attend and take such part therein as they may direct.

Grounds for declaring election void.

40. (1) Save as hereinafter provided in this rule, if in the opinion of the Commissioners—

(*a*) the election of a returned candidate has been procured or induced, or the result of the election has been materially affected, by a corrupt practice, or

(*b*) any corrupt practice specified in Part I of Schedule IV has been committed or

(*c*) the result of the election has been materially affected by any irregularity in respect of a nomination paper, or by the improper reception or refusal of a vote, or by any non-compliance with the provisions of the Act or the rules or regulations made thereunder, or by any mistake in the use of any form annexed thereto,

the election of the returned candidate shall be void.

(2) If the Commissioners report that a returned candidate has been guilty by an agent (other than his election agent) of any corrupt practice specified in Part I of Schedule IV which does not amount to any form of bribery other than treating as hereinafter explained or to the procuring or abetment of personation, and if the Commissioners further report that the candidate has satisfied them that—

(*a*) no corrupt practice was committed at such election by the candidate or his election agent, and the corrupt practices mentioned in the report were committed contrary to the orders and without the sanction or connivance of such candidate or his election agent, and

(*b*) such candidate and his election agent took all reasonable means for preventing the commission of corrupt practices at such election, and

(*c*) the corrupt practices mentioned in the said report were of a trivial, unimportant and limited character, and

(*d* in all other respects the election was free from any corrupt practice on the part of such candidate or any of his agents,

then the Commissioners may find that the election of such candidate is not void.

Explanation.—For the purpose of this sub-rule "treating" means the incurring in whole or in part by any person of the expense of giving or providing any food, drink, entertainment or provision to any person with the object, directly or indirectly, of inducing him or any other person to vote or refrain from voting or as a reward for having voted or refrained from voting.

Report of Commissioners and procedure thereon.

41. (1) At the conclusion of the enquiry, the Commissioners shall report whether the returned candidate or any other party to the petition who has under the provisions of these rules claimed the seat has been duly elected, and in so reporting shall have regard to the provisions of rule 40.

(2) The report shall be in writing and shall be signed by all the Commissioners. The Commissioners shall forthwith forward their report to the Governor who, on receipt thereof, shall issue orders in accordance with the report and publish the report in the Gazette, and the orders of the Governor shall be final.

Form of report.

42. If either in their report or upon any other matter there is a difference of opinion among the Commissioners, the opinion of the majority shall prevail, and their report shall be expressed in the terms of the views of the majority.

Findings as to corrupt practices and persons guilty thereof.

43. Where any charge is made in an election petition of any corrupt practice, the Commissioners shall record in their report—

(*a*) a finding whether a corrupt practice has or has not been proved to have been committed by any candidate or his agent, or with the connivance of any candidate or his agent, and the nature of such corrupt practice, and

(*b*) the names of all persons (if any) who have been proved at the inquiry to have been guilty of any corrupt practice and the nature of such corrupt practice with any such recommendations as they may desire to make for the exemption of any such persons from any disqualifications they may have incurred in this connection under these rules.

PART VIII.

SPECIAL PROVISION.

Interpretation in case of doubt.

44. If any question arises as to the interpretation of these rules otherwise than in connection with an election inquiry held thereunder, the question shall be referred for the decision of the Governor, and his decision shall be final.

Recrimination when seat claimed

38. (*b*) such candidate and his election agent took all reasonable means for preventing the commission of corrupt practices at such election, and

(*c*) the corrupt practices mentioned in the said report were of a trivial, unimportant and limited character, and

then the Commissioners may find that the election of such candidate is not void.

Explanation.—For the purpose of this sub-rule "treating" means the incurring in whole or in part by any person of the expense of giving or providing any food, drink, entertainment or provision to any person with the object, directly or indirectly, of inducing him or any other person to vote or refrain from voting or as a reward for having voted or refrained from voting.

41. (1) At the conclusion of the inquiry, the Commissioners shall report whether the returned candidate, or any other party to the petition who has under the provisions of these rules claimed the seat, has been duly elected, and in so reporting shall have regard to the provisions of rule 40.

(2) The report shall be in writing and shall be signed by all the Commissioners. (*iii*) No objection to a voter shall be entertained except on the grounds mentionsd in rule 24.

(*iv*) Such objection shall be summarily decided by the polling officer, who may for this purpose obtain such evidence as may be available on the spot.

(*v*) If after taking such evidence the polling officer is satisfied that the voter is entitled to vote, he shall hand him the foil of a voting paper and allow him to proceed to vote.

(*vi*) The voter shall mark on the voting paper against the name of each candidate he wishes to vote for a cross for each vote that he gives and shall place the voting paper in the ballot box in the presence of the polling officer.

(*vii*) In the case of illiterate voters or persons who through blindness or any other cause are physically incapable of recording their votes for themselves the polling officer shall ascertain with as much privacy as possible to which candidate or candidates the voter wishes to give his vote and shall put against the name of each such candidate a cross for each vote that he gives. The voting paper shall then be put in the ballot box.

26. It shall be the duty of the polling officer and the election committee to see that votes are recorded with absolute secrecy, that only such persons as may be admitted to the polling booth or room under these rules are admitted thereto, and that persons, who have recorded their votes, or against whom objections have been heard and disposed of, leave immediately. It shall also be their duty to see that these rules and any special directions given by the polling officer thereunder are strictly observed.

27. On the conclusion of the poll, the votes shall be counted in the presence of the candidates by the polling officer with the assistance of the election committee, and the polling officer shall then and there declare the result of the election and report accordingly to the Chairman, if he is not himself the Chairman.

He shall also seal up the book of counterfoils and unused foils of voting papers and, if he is not himself the Chairman, make it over to the Chairman, who shall keep it sealed in his own custody till it is destroyed under rule 32.

28. Any ballot paper shall be invalid if more crosses appear in column 3 than there are vacancies or if any cross is so placed as to render it doubtful to which candidate it is intended to apply.

29. If the majority for any candidate consists only of votes to which objections have been raised, and if the polling officer has been unable to decide such objections summarily, as provided by rule 25 (*iv*), he shall adjourn the proceedings and report the matter to the Magistrate. The Magistrate shall hold such enquiry regarding the disputed votes as shall be necessary, and his decision shall be final. On the termination of such enquiry, he shall declare such candidates as have the largest number of votes to be duly elected.

30. If there be an equality of votes for the same vacancy, and if the number of vacancies does not admit of all the candidates who have obtained an equality of votes being elected, the selection of one of the candidates shall be made by lot by the polling officer, or, in the case prescribed in rule 29, the Magistrate.

31. When the voting papers have been scrutinized, they shall forthwith be replaced in the ballot box from which they were taken and the box, after being locked and sealed with the municipal seal, shall be kept by the municipality in safe custody.

32. On the expiry of fifteen days from the date of the declaration of the result of the election, the voting papers including both those in the ballot box and those in the sealed book in the Chairman's custody shall be destroyed in the presence of such Municipal Commissioner or officer as the Commissioners at a meeting appoint for this purpose.

STATEMENT OF OBJECTS AND REASONS.

In March last the Indian Legislative Council passed an Act—called the Indian Red Cross Society Act—the purpose of which was to create in India a Red Cross Society and to give to that Society certain powers. The Hon'ble Sir Claude Hill in introducing the Bill gave a statement of the objects and reasons, which places on record in a clear and concise form the history of the Red Cross movement in India, and I cannot do better than quote that statement here.

At the outbreak of the great war no Red Cross organization existed in India, nor does any now exist on a formal basis. Red Cross work was carried on, in addition to its own normal activities, by the St. John Ambulance Association in India until August 1916 when the Indian Branch of the Joint War Committee was established, as a subordinate branch of the British organization, with a view to co-ordinating effort on the model of the Joint War Committee in England, which was a combination of the British Red Cross Society and the Order of St. John of Jerusalem in England. At the time of its inception the Indian Branch of the Joint War Committee had not separate funds and was assisted, in its early stages, by the receipt of the balances then remaining from the funds collected by the St. John Ambulance Association in India for Red Cross work, and by grants made by the Joint War Committee in England. Its main function was the administration on Red Cross lines of the funds supplied to it by the Joint War Committee in England and of such other funds as were raised by local donations, etc.

(2) The success which attended the Indian Branch of the Joint War Committee enabled it to build up a position of considerable administrative importance, but this position was not formally established until, at the end of 1917, the collections resulting from the "Our Day" appeal placed it in a position of financial independence of the Headquarters of the Joint War Committee organization in England. The inception of "Our Day" with the magnificent response which it elicited, may be said for the first time to have established in India that vital interest in Red Cross activities which has enabled the Indian Branch for the past two years to extend relief, on its own initiative and under its own control, to various theatres of war in which forces from India have been employed, *e.g.*, Mesopotamia, East Africa, Egypt and India and lately on the North-West Frontier of India.

(3) The substantial balance of funds remaining to the credit of the Indian Branch of the Joint War Committee, chiefly as a response to the "Our Day" appeal, made it possible to hope that after the war came to an end, work for the relief of sickness and suffering might be perpetuated in civil life, and proposals with this end in view were discussed in the winter of 1918-19. Simultaneously the Joint War Committee in England (to whom, it should be noted, the Indian Branch was still subordinate) was addressed to ascertain whether it would be considered legitimate if funds which had been collected for the relief of suffering arising directly out of the war, were utilized for medical relief in time of peace with a view to raising the general standard of comfort and efficiency of civil as well as of military hospitals.

(4) In England two most important steps have been taken which the Joint War Committee in India may well regard as a starting point in considering their future organization, and which, incidentally, furnish a reply to the inquiry referred to in the last paragraph. In the first place, the British Red Cross Society has secured a new Charter under which they are authorized to devote their funds to the alleviation of distress in civil life and for the amelioration of hospital conditions throughout the United Kingdom. In the second place, the British Red Cross Society has entered upon an agreement with the Order of St. John of Jerusalem in England, under which it is hoped that co-ordinated action will be taken for the utilization of the resources of both institutions for the common relief of suffering.

(5) Moreover, as a result of plans which had been developed by the Committee of Red Cross Societies during the early part of 1919, and by a conference of some of the leading medical experts of the world, held at Cannes (France) in April 1919, and with the approval of the Governments of five great Powers, viz., Great Britain, France, Italy, Japan and the United States, an International League of Red Cross Societies was constituted for the purpose of associating the various Red Cross Societies of the world in a systematic effort to anticipate, diminish and relieve misery produced by disease and calamity.

An invitation to become a member of the League was issued to the Indian Red Cross Society (which as explained does not yet formally exist) and has been provisionally accepted.

(6) The Indian Red Cross Society, when it comes into being, will under these circumstances occupy a status and position exactly corresponding to that of the British Red Cross Society in the councils of the International League of Red Cross Societies; and it will be entitled to the same representation upon that body as the British or any of the Dominion Red Cross Societies.

(7) As a result of these events we have now reached a position which throws upon the Indian Branch of the Joint War Committee with its affiliated provincial branches, a very great responsibility. It is now incumbent upon the Joint War Committee with, it is hoped, the backing of all shades of responsible Indian opinion, to establish an independent Indian Red Cross Society with branches in every province, and with functions extending beyond war work in co-operation with the work of the St. John Ambulance Association and Brigade.

(8) Concurrently with the establishment of an Indian Red Cross Society on a formal basis, it is also necessary to vest in it legal power, on this wider basis, to administer the funds of the Joint War Committee in India, which were collected for the relief of suffering occasioned by the war, and such other sums as may hereafter be collected and credited to it.

The present surplus funds of the Joint War Committee in India will, under the proposals in the draft Bill, become the chief capital fund in reserve for the relief of the sickness, suffering or distress, caused by the operations of war in India or in any other of the countries in which Expeditionary Forces from india may from time to time be employed, and for purposes cognate to that object.

The first charge on the *interest* of the invested capital will be the maintenance of Red Cross Depôts for military purposes, and, after allowing for the above, the remaining available sums together with such other sums as may from time to time be received in aid of the work of the new Society may, in conformity with what has been decided in England, be devoted to the relief of civil suffering generally, in raising the standard of comfort of civil as well as military hospitals and their administration, and generally in the interest of hygiene.

(9) It is proposed that the arrangements be eleborated on a provincial basis and that all allotments to provinces annually of interest on capital should bear relation to the contributions made by provinces to those sums, and finally that provincial branches should have complete discretion in the disposal of these allotments of interest, and in the disposal of such other sums as may be collected and credited to the Provincial Branch within the province.

With a view to widening as far as possible the field of useful work opening to the Indian Red Cross Society and to the provincial branches, it is proposed to legalize the affiliation with those bodies of societies and bodies having cognate aims and objects.

2. In Bengal, too, there are balances of certain Funds raised in connexion with War Relief These are Lady Carmichael's Bengal Women's War Fund and the "Our Day" Fund (Bengal Branch). The Committees responsible for the administration of these Funds have passed resolutions expressing the desire that the balances should be made over to the Red Cross organization to administer. The object of the present Bill is to create in Bengal a society to be called "The Indian Red Cross Society, Bengal Branch" and to give to this body power to take over these balances and to administer them and such other funds as may be entrusted to their care for the relief of sickness, suffering and distress caused by the operation of war in India or in any other of the countries in which Expeditionary Forces from India may from time to time be employed, and for purposes cognate to that object.

3. The Bill also gives a general power to the Society from time to time to extend its sphere in other directions for the relief of sickness and suffering in general.

4. The Bill has been drafted on the lines of the Indian Red Cross Society Act, and the body which it is proposed to create will work as a branch of the Indian Red Cross Society.

WIRELESS METEOROLOGICAL INFORMATION TO AND FROM SHIPS AT SEA.

General Remarks.

No. 156 (first publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 703 of 1920), are republished :—

Former Notice.—No. 478 of 1920 (*This Office No. 122 of 1920*); hereby cancelled.

1. It is earnestly hoped that all concerned will assist in making the wireless meteorological service a success Negotiations are now in hand to extend and unify the system of collecting weather data by wireless from ships at sea all over the world, and at the same time to organise the free transmission of weather bulletins from a sufficient number of wireless stations to admit of ships being constantly supplied with reliable weather reports and forecasts wherever they may be.

2. It should be borne in mind that the needs of ships at sea in regard to information regarding the weather will march hand in hand with the requirements of aircraft. The importance of this service will therefore be constantly increasing, and its success or failure will largely depend upon the co-operation of ships at sea in providing the data without which accurate forecasting is impossible. The matter does not depend solely upon the efforts of the ships selected to furnish the data. The essence of success lies in rapidity in passing such data by wireless from the ship to the coast station, and thence to the central meteorological office. It follows, therefore, that all ships not taking an active part in supplying data should use the greatest care not to interfere with the transmission of the wireless messages to the shore.

3. The following particulars refer to the scheme now being undertaken by the British Meteorological Office. This Notice will, however, be subject to revision from time to time, and endeavours will be made to include in each revision all information available to date of the weather bulletins issued by the wireless stations of the world. Earnest endeavours are being made to obtain international agreement as to the form of these weather bulletins and to the methods and times of transmissions. It is hoped that the messages will eventually all be made in an international code at fixed times, so arranged that a ship with only one wireless operator will be able to read them. A similar scheme for time signals is being evolved.

COLLECTION OF WEATHER DATA FROM SHIPS.

4. Certain ships are being asked to supply data regularly three times a day and in addition to the regular observations, which are taken at 0100, 0700 and 1300 Greenwich time and sent as soon as possible to Malin head (GMH) or Valentia (GCK) coast stations, these ships may, on request from either of these coast stations, send special data messages at other times.

5. Precise instructions as to the procedure for ships which intend to send a data message, together with the necessary code, will be issued at an early date.

Issue of Weather Bulletins to Ships.

6. A wireless *weather bulletin* may contain both or either of the following:—

(*a*) A *weather report*, which is an official statement of existing weather conditions; and-or

(*b*) A *weather forecast*, which is an official opinion of probable future weather conditions.

7. The accompanying schedule of wireless weather bulletins is intended to provide, in a form suitable to give all information required by the wireless operator, a complete and up-to-date list of all weather bulletins transmitted at fixed times by wireless stations throughout the world. The same information will be found in detail in the Sailing Directions and in the International List of Radiotelegraph Stations (the Berne List).

8. The times given in the third column of the schedule are expressed in the 4-figure notation employed for signalling during the war. The term "G.M.T." here means the civil mean time of the meridian of Greenwich, with the day commencing at midnight and the hours reckoned from 00 to 23.

9. Operators are reminded that Article 45 of the International Service Regulations imposes the general obligation of not interfering with reception of weather bulletins by other ships.

10. Certain other stations not shown in the schedule supply weather bulletins *on demand*, generally at reduced charges. Particulars will be found in the Berne List.

MONTHLY WEATHER AND CROP REPORT OF BENGAL FOR MAY 1920.

I. **Character of the season.**—During the month under review the rainfall throughout the Province was in considerable defect except in the district of Pabna only, where the fall was slightly in excess of the normal. The usual rainfall statement is appended.

II. **Progress of agricultural operations.**—Harvesting of summer rice was completed. Sowing of jute and other autumn crops was almost finished in East and North Bengal while in West Bengal the operation was retarded for want of sufficient rain. Weeding was proceeding in the Northern and Eastern districts. Preparatory tillage for winter paddy was in full swing; but more rain was needed for the operation, especially on high lands. Sowing of paddy seed-beds commenced during the latter part of the month.

III. **State of standing crops.**—The condition of sugarcane, jute, paddy and other standing crops was generally fair.

IV. **Prospects and probable outturn.**—Some low land jute has flowered prematurely in East Bengal and some low land paddy has not recovered from the heavy rain early in the season. On the whole, however, prospects are at present fairly favourable; though more rain is urgently needed in West Bengal. The summer rice harvest has been a satisfactory one.

V. **Damage to standing crops.**—In the middle of the month excessive rain caused some damage to standing crops in parts of Mymensingh, while in the latter part of the month hail damaged crops in parts of Rangpur. Jute and other standing crops on high lands suffered from want of moisture in some Western districts.

VI. **Condition of agricultural stock.**—No report about the existence of of cattle disease was received frem the districts of the Burdwan Division, Dinajpur, Rangpur, Dacca, Faridpur, and Chittagong. Elsewhere it was reported to be more or less prevalent.

VII. **Failure of pasturage and fodder.**—The supply of fodder was reported to be sufficient throughout the Province.

VIII. **Prices of food-grains.**—During the second fortnight of the month under review, the price of common rice of the cheapest quality rose in sixteen districts, fell in one only and remained stationary in the rest of the Province. In varied from 4 seers 3 chittaks at Bakarganj to 6 seers 12 chittaks at Birbhum.

IX. **Condition of agricultural people.**—The condition of agricultural population was fairly satisfactory.

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 10th June 1920.

Summary.—During the week rainfall was heavy in the Chittagong Division and light to moderate elsewhere. It has facilitated the preparatory tillage for winter rice crop and benefited the standing crops, especially in East Bengal. Sowing of winter paddy for seedlings is also proceeding. The average price of common rice for the province has risen by about 2·28 per cent. as compared with that of the previous week.

If, however, deep water is not available, the wet carbide of calcium shall be spread out in the open in an isolated position, all precautions being taken to prevent lights being brought near until the material has given off all its gas.

It is proposed to introduce and consider and pass the Bill at the meeting of the Bengal Legislative Council to be held on the 1st July next.

THE CALCUTTA PILOTS (AMENDMENT) BILL, 1920 ;

A

BILL

to amend the Calcutta Pilots Act, 1859.

WHEREAS it is expedient to amend the Calcutta Pilots Act, 1859, in the manner hereinafter appearing; Act XII of 1859.

And whereas the previous sanction of the Governor General has been obtained under section 79, sub-section (*2*), of the Government of India Act, 1915, to the passing of this Act; 5 & 6, Geo 5, c. 61

It is hereby enacted as follows :—

Short title. **1.** This Act may be called the Calcutta Pilots (Amendment) Act, 1920.

Amendment of section 17 of Act XII of 1859. **2.** In section 17 of the Calcutta Pilots Act, 1859, the words "or pay" shall be omitted.

STATEMENT OF OBJECTS AND REASONS.

The Royal Commission on the Public Services in India in paragraph 10 of Annexure XV of their report relating to the Bengal Pilot Service were agreed that the system of punishing pilots by means of reduction of earnings authorized by section 17 of Act XII of 1859 was unjust and should be discontinued. Aggravated misconduct should be punishable by discharge or suspension, and pilots convicted of mistakes due to lack of experience should be reduced temporarily to a lower grade. The object of this Bill is to give effect to these recommendations by amending section 17 of the Calcutta Pilots Act, 1859.

Steam vessels of any draft entering Bombay Harbour either by day or night should experience no difficulties although the Pilot Schooner has been brought in from her original station and is now anchored off Sunk Rock, they should attempt always to make the Bombay Floating Light moored in the fairway (Lat. 18° 50′ N., Long. 72° 44′ 30″ E.) thence steer a course to bring Prongs Reef Buoy in transit with Sunk Rock at a distance of not less than one mile, then the course should be altered direct for the Pilot Schooner or one mile east of Sunk Rock. During the Monsoon when the weather may be such as to make it difficult for the Mariner to distinguish the more conspicuous marks or during the cold weather months when great smoke haze lies over the town and surrounding country, the best time to make the Port is an hour before sunrise, the lights then being visible will enable the Mariner to obtain an accurate position, and it should be remembered that the Light Vessel is fitted with a submarine bell, also that both Prongs Reef and Thull Shoal are marked by Gas Buoys.

2. Pilotage is compulsory, no vessel is allowed to proceed north of Sunk Rock; Naval Ships, Royal Indian Marine Ships and other Government Vessels being exempted. All vessels making the Port should show their nationality and name to Prongs Light House as soon as possible on which Light House a Watch is kept night and day.

WIRELESS METEOROLOGICAL INFORMATION TO AND FROM SHIPS AT SEA.

General Remarks.

No. 156 (second publication).— The following particulars, etc., relative to the above, issued by the British Admiralty (No. 703 of 1920), are re-published :—

Former Notice.—No. 478 of 1920 (*This Office No. 122 of 1920*); hereby cancelled.

1. It is earnestly hoped that all concerned will assist in making the wireless meteorological service a success Negotiations are now in hand to extend and unify the system of collecting weather data by wireless from ships at sea all over the world, and at the same time to organise the free transmission of weather bulletins from a sufficient number of wireless stations to admit of ships being constantly supplied with reliable weather reports and forecasts wherever they may be.

2. It should be borne in mind that the needs of ships at sea in regard to information regarding the weather will march hand in hand with the requirements of aircraft. The importance of this service will therefore be constantly increasing, and its success or failure will largely depend upon the co-operation of ships at sea in providing the data without which accurate forecasting is impossible. The matter does not depend solely upon the efforts of the ships selected to furnish the data. The essence of success lies in rapidity in passing such data by wireless from the ship to the coast station, and thence to the central meteorological office. It follows, therefore, that all ships not taking an active part in supplying data should use the greatest care not to interfere with the transmission of the wireless messages to the shore.

3. The following particulars refer to the scheme now being undertaken by the British Meteorological Office. This Notice will, however, be subject to revision from time to time, and endeavours will be made to include in each revision all information available to date of the weather bulletins issued by the wireless stations of the world. Earnest endeavours are being made to obtain international agreement as to the form of these weather bulletins and to the methods and times of transmissions. It is hoped that the messages will eventually all be made in an international code at fixed times, so arranged that a ship with only one wireless operator will be able to read them. A similar scheme for time signals is being evolved.

Collection of Weather Data from Ships.

4. Certain ships are being asked to supply data regularly three times a day and in addition to the regular observations, which are taken at 0100, 0700 and 1300 Greenwich time and sent as soon as possible to Malin head (GMH) or Valentia (GCK) coast stations, these ships may, on request from either of these coast stations, send special data messages at other times.

5. Precise instructions as to the procedure for ships which intend to send a data message, together with the necessary code, will be issued at an early date.

Issue of Weather Bulletins to Ships.

6. A wireless *weather bulletin* may contain both or either of the following :—

(*a*) A *weather report*, which is an official statement of existing weather conditions; and-or

(*b*) A *weather forecast*, which is an official opinion of probable future weather conditions.

7. The accompanying schedule of wireless weather bulletins is intended to provide, in a form suitable to give all information required by the wireless operator, a complete and up-to-date list of all weather bulletins transmitted

at fixed times by wireless stations throughout the world. The same information will be found in detail in the Sailing Directions and in the International List of Radiotelegraph Stations (the Berne List).

8. The times given in the third column of the schedule are expressed in the 4-figure notation employed for signalling during the war. The term "G.M.T." here means the civil mean time of the meridian of Greenwich, with the day commencing at midnight and the hours reckoned from 00 to 23.

9. Operators are reminded that Article 45 of the International Service Regulations imposes the general obligation of not interfering with reception of weather bulletins by other ships.

10. Certain other stations not shown in the schedule supply weather bulletins *on demand*, generally at reduced charges. Particulars will be found in the Berne List.

FUTURE OF THE SUBORDINATE CIVIL SERVICE.

GOVERNMENT OF BENGAL.

APPOINTMENT DEPARTMENT.

DARJEELING, THE 21ST JUNE 1920.

RESOLUTION No. 1646 A.D..

AT a meeting of the Legislative Council in July last Government announced their intention of bringing the pay and conditions of service of the subordinate civil service under review as soon as a decision had been arrived at regarding the future pay and conditions of service of the provincial civil service. The orders of the Secretary of State on the system of recruitment, the method of training and the leave and pension rules of the senior service are still awaited, and any proposals affecting the junior service under these heads must still, to some extent, be provisional. But final orders have been passed fixing the future emoluments of the provincial civil (executive) service, and the Governor in Council considers that the time is now ripe for the publication of the suggested lines of treatment for the subordinate service so that the public and those directly interested may have an opportunity of making their views known to Government before a final decision is arrived at. The case of this service was not dealt with by the Public Services Commission, whose recommendations have formed the basis for discussion in regard to the revision of pay in other services. The main points in issue are, however, indicated under the general heads discussed below. The proposals put forward are those which at present commend themselves to the Governor in Council.

2. **Status and Title.**—The service was originally constituted for outdoor revenue work of a minor kind. As administrative needs developed the service was later entrusted with minor magisterial functions as well, and came to be employed in a general way on minor duties at headquarters and in the field, thus setting free the two major services for the more important duties for which they are responsible. The magisterial powers of the service were limited to those of the 2nd and 3rd class until 1911, when it was decided that powers of the 1st class might be given to a limited number of sub-deputy magistrates, whose promotion on grounds of merit to the provincial civil service was likely to take place within two or three years. During the war, owing to the depletion of the cadre and the absence on war service of a number of members of the Indian Civil Service, it was found necessary to relax this restriction temporarily, and to vest with first class powers a further limited number of sub-deputy magistrates who had exercised second class powers with credit for some time. Some members of the subordinate service were thus temporarily employed to do the work which properly falls within the sphere of the provincial service, and the distinction between the two services was to that extent blurred, with the result that the claim has been put forward that the distinction is non-existent and that the two services should be amalgamated. This claim the Governor in Council cannot admit. His reasons were given in detail in the debate on the resolution on the subject which was moved by the Hon'ble Babu Surendra Nath Ray at the meeting of the Bengal Legislative Council held on the 4th July 1919. They need not be repeated here; but the essence of the case is that there is in the field of administrative work a class of duties of minor importance, on the performance of which a separate service, limited to minor responsibilities and drawing lower emoluments, should be employed. Any other arrangement would be financially

unjustifiable. It is proposed accordingly to constitute the service as a definitely self-contained part of the administrative machinery with duties of its own and emoluments sufficient to provide a reasonable career to the officers joining it.

The practice of investing sub-deputy magistrates with 1st class powers will be stopped ; and steps are being taken to effect such revisions in the cadre of the provincial civil service as will avoid the future employment of officers of the junior service on duties more properly belonging to the major services. On the other hand, the work to be performed by the junior service is expanding in other directions, as for instance, the circle system develops under the application of the Village Self-Government Act, and their share in the administration will remain important and honourable.

The present title of the service seems appropriate, and might continue. The orders of the Secretary of State on the proposal that the provincial civil service should, in future, be called the "Bengal Civil Service" have not yet been received.

3. **Recruitment.**—The Subordinate Civil Service is at present recruited—

(1) by promotion of officers serving under the Board of Revenue or the Revenue Department on the nomination of the Board or the Department ;

(2) by appointment once in every three years of an officer nominated by the Finance Department from a service under that Department ; and

(3) by the direct recruitment of candidates possessing certain prescribed qualifications.

Twenty per cent. of vacancies are ordinarily filled by the promotion of persons already in Government service, and the remainder are filled by the Governor in Council, assisted by Commissioners of Divisions, who are asked to nominate candidates for 50 per cent. of the appointments to be made. The following are the minimum qualifications demanded in a candidate for direct recruitment :—

(*a*) that he is a natural born subject of His Majesty or of a Native State ;

(*b*) that he is not under 20 or over 25 years of age ;

(*c*) that he is of good character ;

(*d*) that he is a graduate ; and

(*e*) that he is physically fit.

The advantages of a system of direct recruitment for the services they had under review were discussed by the Public Services Commission ; and the Governor in Council considers that, normally, recruitment to the Subordinate Civil Service should be direct. But the circumstances of certain revenue establishments are peculiar, and it is not considered desirable to deprive them of the opportunities they have hitherto had of attaining to pensionable status in the subordinate service as a reward for good work. Twenty per cent. of the vacancies might therefore continue to be filled from officers serving under the Revenue Department or Board of Revenue who are otherwise qualified for direct appointment. The remainder might be recruited directly from outside candidates ; and the qualifications at present demanded seem to be suitable. No final decision has yet been announced regarding the proposal that direct recruitment for the provincial civil service should be made by a competitive examination open to persons possessing specified qualifications, with reservations calculated to secure the representation of special communities. If such a system is adopted the direct recruitment for the subordinate service would naturally form part of the scheme.

4. **Probation and training.**—Officers are at present first appointed as probationers for a minimum period of one year and are thereafter, if their work is satisfactory, appointed to the lowest grade of the cadre as vacanies occur. During their period of probation they undergo a course of practical training similar to that prescribed for officers of the two senior services, and are required to pass departmental examinations, It is proposed in future to

appoint a candidate definitely to the service at once, but he will remain on probation for the first two years. This proposal follows the decision recently announced in the case of the provincial civil service. The incidence of training may continue as at present.

5. **Salary.**—The service is at present divided into probationers on an allowance of Rs. 50 per month and five grades of officers on salaries ranging from Rs. 100 to Rs. 250 per month. The cost of living has increased since these rates were sanctioned, and the service is entitled to share in that general amelioration of conditions which has been accorded to the services brought under review by the Public Services Commission. It is also desired, as explained above, to reflect in the emoluments of the service the fact that the service is designed to be a career in itself for educated men, and is a service filling a definite part in the general administration. The Governor in Council is accordingly prepared to consider an improvement in its emoluments not strictly limited by considerations of supply and demand; and he proposes that, in common with other services recently re-organized, it should be given a system of pay by time scales instead of by grades with a selection grade outside the scale for officers of special merit. A suitable time scale would appear to be—

(1) for probationers Rs. 125 in the first year, and Rs. 150 in the second; and

(2) for confirmed officers Rs. 175 rising by triennial increments of Rs. 25 to Rs. 350 in the 24th year of total service. Above this scale there might suitably be a selection grade for 3 per cent. of the total cadre on a pay of Rs. 400.

As in other services recently brought under time scales, there should be an efficiency bar within the timescale. An efficiency bar between the pay of the 11th year and that of the 12th, *i.e.*, just above the pay of Rs. 225, would appear to be appropriate.

6. **Promotion to the Provincial Civil Service.**—At present 35 per cent. of the vacancies occurring in the provincial civil service are filled by promotion of selected officers from the subordinate civil service on the nomination of the Revenue Department. As has already been stated the question of partially recruiting a service from a subordinate service was discussed by the Public Services Commission. But in any case it would be unfair to deprive those already in the subordinate service of the opportunities for promotion which were open to that service when they entered it; and it is intended, therefore, until further notice and subject to any orders that may be passed on the recommendation of the Public Services Commission with reference to the recruitment of the provincial service, to continue the recruitment of 35 per cent. of the vacancies in the provincial service from the subordinate service. The continuance of this recruitment does not, however, affect the principle that the subordinate service is intended to afford a reasonable career in itself for those who enter it, and promotion to the higher service can only be regarded as a prize in reward for specially good work, to which individual officers have no specific claim.

7. **Leave and Pension.**—At present the service is not a gazetted one and does not therefore come under the same rules for leave and pension as gazetted services. As at present advised the Governor in Council considers that the rules on these subjects should be the same for the provincial and subordinate services.

8. Any criticisms which it is desired to offer should reach the local Government not later than the 31st July, after which the matter will be further considered.

NOTIFICATION.

ACCOUNTS AND FINANCE.
ESTIMATES OF ACCOUNTS.

Simla, the 14th June 1920.

No. 1716-F.—It is hereby notified for general information that with reference to the provisions of section 30, Government of India Act, 1919, His Majesty's Government have decided to make a contribution of £136,500 per annum, with effect from the current financial year towards the cost of the administration of the India Office. This amount is made up as follows:—

	£
(*i*) Salary of the Secretary of State and Parliamentary Under-Secretary	6,500
(*ii*) Estimated cost of the portion of the India Office establishment which is employed on administrative and political, as distinct from agency, functions	130,000

2. A contribution of £40,000 per annum on account of the cost of the India Office has hitherto been made in pursuance of the recommendations of the Welby Commission, so that the additional contribution which will be paid in consequence of the passing of the Government of India Act, 1919, is £96,500. The amount shown against item (*ii*) has been adopted on the recommendation of a Committee appointed by His Majesty's Government to assess the cost of the India Office establishment employed respectively on agency and non-agency functions; and it will be in force for 1920-21 and the following four years, at the end of which period steps will be taken to re-assess the contribution on the information then available.

3. As a result of this settlement the annual debate on Indian affairs in the House of Commons will take place not, as hitherto, on the presentation of the East India Accounts, but on the occasion when the Civil Service estimates, in which the contribution towards the cost of the India Office is included, are brought up for consideration in Committee of Supply.

RESOLUTION.

PENSIONS AND GRATUITIES.

The 18th June 1920.

No. 1003-C.S.R.—In resolution No. 714-C.S.R., dated the 10th May 1920, it was announced that with a view to the exact scope of the new pension rules published in resolution No. 1085-E.A., dated the 15th November 1919, being made clear the Government of India intended to publish those rules in the form of amendments to the Civil Service Regulations. The accompanying amendments to the Regulations are now published for general information.

2. At the end of Schedule B showing appointments carrying additional pensions published with resolution No. 1085-E.A., dated the 15th November 1919, it was stated that any other pensionable appointment not included in the schedule, the minimum substantive pay of which is not less than Rs. 1,500 a month, would qualify for an additional pension on the lower

scale. This statement did not, however, correctly interpret the orders of the Secretary of State. The Departments in which appointments had already been specified in Schedule B had been considered as a whole and those appointments which were regarded as deserving an additional pension had already been definitely included. It was not the intention of the Secretary of State that appointments in such Departments, even though carrying a minimum substantive pay of Rs. 1,500, should automatically become entitled to the special additional pension. This has been made clear in the rules now published. But at the same time the Secretary of State has granted to the Government of India the power to admit appointments in such Departments, the minimum substantive pay of which is not less than Rs. 1,500 a month, and the Government of India will be prepared to consider any such cases on their merits.

ORDERED that the Resolution be communicated to the several Departments of the Government of India (including the Financial Adviser, Military Finance, and the Board of Industries and Munitions); to all Provincial Governments and Minor Local Governments; to the Comptroller and Auditor General; to the Heads of Departments subordinate to the Finance Department; to all Accountants-General; to the Comptroller, Assam; to the Chief Auditors of State Railways and Government Examiners of Railway Accounts; to the Examiner of Accounts, Military Works Services; to the Examiner of Press Accounts; to the Controller of War Accounts; to the Audit Officer, Delhi Province, and to the Examiner of Customs Accounts.

ORDERED also that it be published in the *Gazette of India*.

trading is allowed, provided that any such parcel may not contain more than two pounds of sugar or more than one pound of butter. Applications need therefore, no longer be submitted to the Import and Export Licensing Section in respect of the export of such parcels by parcel post.

NOTES REGARDING EXPORT TO CERTAIN COUNTRIES.

Exporters are warned that there are import prohibitions in some foreign countries, information regarding which can be obtained from the Department of Overseas Trade, 35, Old Queen Street, Westminster, S.W. 1, and 73, Basinghall Street, E. C. 2. The issue of an export licence implies no guarantee that the goods will be admitted into the country of destination.

There is no parcel post to Esthonia, Jugo-Slavia (except Dalmatia), Lettland (Latvia), Lithuania, Poland.

Germany.—Gift parcels sent by parcel post may enter Germany without import licence and also free from duty and taxes, provided they do not contain more than 2 kilos (70 ozs.) of tobacco.

Russia (European).—Conditions under which trading with European Russia will be permissible are at present under consideration.

Syria.—A Parcel Post Service is in operation north of Acre to Alexandretta and west of Aleppo, including—

Beyrout, Damascus, Hamah, Homs, Latakia, Rayak and Tripoli.

Turkey.—Parcels for civilians in Turkey and Smyrna will only be accepted if they are fully addressed "c-o Poste Restante, British Army Post Office, Constantinople" (and-or Smyrna), and parcels must be *called* for at the British Post Offices.

URGENT ORDERS.

The Import and Export Licensing Section, Board of Trade, announces that firms receiving orders which require immediate acceptance may telegraph details of any such order to ascertain whether a licence will be granted for the export of the goods if the order is accepted.

In the event of an applicant being promised a licence he will be enabled to deal with the order straightaway with the knowledge that upon application being made in the proper form to the Import and Export Licensing Section (Board of Trade) the licence will be granted.

The telegrams should be addressed to "Derestim, London." They should give in each case in addition to the name and postal or telegraphic address of the applicant, the quantity and description of the goods comprised in the order and the country of destination. A reply of 24 words (1*s*. 3*d*.) must be prepaid.

Applicants are requested in their own interest to confine their enquiries to orders needing a very urgent decision, since the fewer the enquiries the more promptly can answers be given.

Any subsequent correspondence that is necessary in connection with the telegraphic enquiries should be addressed to the Director, Import and Export Licensing Section, Board of Trade, Great George Street, S. W. 1

TRANSHIPMENT IN THE UNITED KINGDOM.

The provisional approval of the Import and Export Licensing Section, Board of Trade, should be obtained before the following goods are brought to this country for transhipment:

It is not now necessary to make application to the Collector of Customs at the transhipment ports on Form S. 90 for the transhipment of any goods except those specified in the following list:

Foodstuffs for animal or human consumption which are on Section "A" or "B" of the list of prohibited exports (including tea).

Orders by the Governor of Bengal in Council.

MUNICIPAL AND LOCAL.

NOTIFICATIONS.

No. 1918.—L.S.-G.—The 24th June 1920.—In exercise of the powers conferred by clauses (*f*) and (*m*) of sub-section (*2*) of section 101 of the Bengal Village Self-Government Act, 1919 (Bengal Act V of 1919), the Governor in Council is pleased to make the following rules :—

Account Rules for Union Boards under section 101 (*2*) of the Village Self-Government Act, 1919.

Budget Estimate.

1. The union board shall annually submit to the district board through the local board, on or before such date as the district board may appoint, an estimate in form No. 1 of the probable receipts and expenditure of the union board for the ensuing Bengali year, for sanction of items other than those relating to dafadars and chaukidars.

An extract from the estimate relating to dafadars and chaukidars shall be submitted to the District Magistrate for sanction. A copy of the extract shall also be submitted to the Subdivisional Magistrate through the circle officer.

2. No expenditure shall be incurred in excess of the budget under any head without the previous sanction of the district board or the District Magistrate, as the case may be, and no reappropriation from one sub-head to another under the same head shall be made without the sanction of the union board at a meeting: provided that if urgent need occurs the president may reappropriate a sum not exceeding Rs. 10 from one sub-head to another under the same head. The president shall inform the union board at the next meeting and obtain its approval.

Custody of Union Fund.

3. The union fund shall either remain in the custody of the president or be deposited in the name of the union board in the Savings Bank of the nearest post-office; or in the case of union boards at headquarters of sub-divisions, the president may open an account in the local treasury or sub-treasury to which he shall credit the receipts of the union fund. In the last named case a pass-book and a cheque-book shall be supplied to the president, the treasury officer being directed to pass cheques issued by the president. The cheque-book shall remain in the custody of the president.

Cash-book.

4. All receipts and payments of a union board not having an account with the local treasury or sub-treasury shall be recorded in a cash-book in Form No 2 on the same day that the money is received or paid, and, in the case of union boards having an account with the local treasury or sub-treasury, all receipts shall be recorded in a cash-book in Form No. 3 and promptly remitted to such treasury or sub-treasury, and payments shall be entered in the cash-book as soon as cheques are signed by the president. The amount of cheques received in payment of contributions shall be entered in the cash-book after encashment, but if the union board has an account at the treasury or sub-treasury, the cheques in payment of contributions from the provincial and district funds shall be credited to the union board by *per contra* debit to these funds and shall be included in the cash-book when the credits appear in the pass-book.

Assessment and Collection of Union Rate.

5. For the collection of the rate imposed under section 37 of the Act, the following accounts shall be kept:—

A.—Collection register (Form No. 4).

B.—Daily collection book (Form No. 5).

Columns 2 and 4 of the collection register shall be filled in at the beginning of the year and columns 1 and 3 as soon as the current year's assessments are determined.

6. The collecting member or officer shall enter the amount at once with necessary details in the daily collection book (Form No. 5). The register of daily collections and the counterfoils of receipts shall be taken to the president, with the collections, on the first day of every month and also on any day when the collecting member or officer has Rs. 25 or more in hand and shall be produced at any other time when the president may so order. The collections shall be made over to the president for credit to the union fund and his receipt taken in the daily collection book. From this book the collections shall be posted the next day in the collection register. The amount shall be entered in the column for the quarter in which, and not that for which, it is realized.

Rent of Pounds and Ferries.

7. A register in Form No. 6 shall be maintained for watching recoveries of pound and ferry rents and accounting for them.

8. The lessees of pounds and ferries shall be required, at least 15 days before the period of the lease begins, to place their signature in column 9 against their names and to pay in advance at least one quarter of a year's rent.

9. The register shall be opened by bringing forward all arrears due from lessees whose leases have terminated and have not been renewed. The entries shall be filled in from the previous year's account and made serially, one below the other in column 6, grouped according to the year for which the arrears are due. In the case of such expired leases columns 7 to 9 need

not be filled in. The demands for current leases and the dates on which payments on account of them are due shall be entered in columns 7 and 8, respectively. Every entry in columns 6 and 7 shall be verified by the president, who shall put his initials with date in column 10 against each entry.

10. All realizations and their dates shall be entered in columns 11 and 12, respectively, and all sums so realized shall be credited direct to "Pound receipts" in column 5 or "Ferry receipts" in column 3 of the cash-book. The entries in column 11 shall be compared by the president, with the cash-book and he shall place his initials in column 15.

11. When a lease is cancelled for any reason and the pound or ferry re-sold or abolished, the demands up to date shall be worked out and compared with the collections up to date.

Receipts.

12. For all sums received by the union board except those on account of the union rate, a receipt in Form No. 7 duly signed by the president shall be granted to the payee.

Remissions.

13. No remission shall be sanctioned except by the union board at a meeting.

Payment of Claims.

14. Every bill or other claim for payment from the union fund shall show full details of the charges, shall be signed by the persons to whom the money is actually due and shall, except in the case of advances paid under rule 15, bear a certificate that the work billed for has actually been completed. When the work is carried out under the supervision of an officer of the district or local board, the certificate should be signed by that officer. In other cases it should be signed by a member of the union board authorized by the board to do so on its behalf in each case. At the time of making payment in cash or of issuing a cheque, the president shall take a receipt, stamped if necessary, from the payee, and endorse the bill with the words "Paid Rs. only (Rupees) $\frac{\text{in cash}}{\text{by cheque No.}}$", the amounts being written in words as well as in figures. The endorsement shall be dated and signed by the president and shall bear the number of the voucher as in the cash-book. Payments to illiterate persons shall be attested by a competent witness in addition to the paying officer.

Advances.

[NOTE.—Union board works may be carried out either by a contractor under the supervision of a member or officer of the union board or of an officer of the district or local board, or directly by a member of the union board, provided that such member, except with the sanction of the local board, does not directly or indirectly participate in the profits of the work or is not concerned or does not participate in any contract connected with the work.]

15. If any work is to be carried out by a member of a union board or by a contractor under the supervision of a member of a union board, advances may be paid, with the sanction of the union board, either to such member or to the contractor. The person to whom an advance is paid shall keep proper accounts of the amount advanced, and shall submit an account duly supported by vouchers to the union board within three months from the date of the advance. No fresh advances shall be paid until the previous advance is adjusted.

16. As soon as an advance is paid under rule 15 the president shall enter it as a payment, under the head "Advances," on the payment side of the cash-book (Form No. 3 or 2 according as the union board has an account with the local treasury or not) and make the necessary entries in the payment side (columns 15, 16, 17 and 29 in Form No. 2, or columns 19, 20, 21, 22 and 34 in Form No. 3, as the case may be). The payment orders shall be used as vouchers and numbered serially and the serial numbers entered in the payment side (column 17 of Form No. 2 or column 21 of Form No. 3). The advance shall also be entered in columns 1 to 4 on the debit side of the advance register (Form No. 8), and for each person to whom advances are given a separate account shall be opened in the register. Advances paid to the same person for more than one work shall be entered as separate entries both in the cash-book and in the advance register. When advances are recovered either in cash or by work-bills, necessary entries shall be made in columns 6 to 9 on the credit side of the advance register. If the advance is recovered in cash, it shall be entered as "Advance recovered" on the receipt side of the cash-book (Form No. 2 or 3). If, however, the recovery is made by work-bill, the amount shall, in the first instance, be posted in the adjustment register (Form No. 9), not only in column 4 as a credit, but also under the appropriate head on the payment side (columns 6 to 11). The totals of the adjustment register for the month shall be posted under the appropriate heads of the cash-book (columns 20 to 26 of the payment side of Form No. 2, or columns 25 to 31 of the same side of Form No. 3, as the case may be).

Annual Accounts.

17. As soon as possible after the close of the year the annual account of the union board showing the total receipts and payments during the year under the several heads of accounts with opening and closing balances shall be prepared in a form similar to the cash-book, but omitting columns 1, 2, 3, 15, 16 and 17 in case of Form No. 2, and columns 1, 2, 3, 16, 17, 18, 19, 20, 21 and 22 in case of Form No. 3. This account shall be submitted to the district board after actual counting of the closing balance and comparison with the treasury or Savings Bank pass-book. A copy of it shall also be submitted to the District Magistrate.

18. An abstract of annual expenditure, prepared in Form No. 10, together with a statement of the charges for chaukidars and dafadars and other establishment (if any), shall be published, not later than one month after the close of the year to which it relates, by posting up a copy signed by the members of the union board at the office of the union board or in any neighbouring *hát* which is generally frequented by the villagers belonging to the union.

Audit of Accounts.

19. At least once a year a complete audit of the union board's accounts shall be carried out within the union by the circle officer.

Register of Lands and Public Rights of Way.

20. A proper record of all lands, including roads, lands on roadsides, sites of buildings, tanks, etc., in the possession of the union board either as owner or controller shall be kept in Form No. 11. If any plot of land shown in the register is sold or otherwise transferred from the possession of the union board, the entry for it shall be struck off and the facts in connection with the transfer or sale stated in the column for remarks under the initials of the president. The register shall be annually examined by the president and attested with his signature and date.

All public rights of way, by land or water, should be entered in this register. If a path over which the public has a right of way has not been formally acquired by the Government or a local authority, an entry shall be made in columns 7, 11 and 12. In every case the numbers of the plots in the most recent settlement or other authoritative maps shall be entered in column 12. Care should be taken to include all plots covered by the land to which the entry relates.

7. The lessees of pounds shall be required, at least 15 days before the period of the lease begins, to place their signature in column 9 against their names and to pay in advance at least one quarter of a year's rent.

8. The register shall be opened by bringing forward all arrears due from lessees whose leases have terminated and have not been renewed. The entries shall be filled in from the previous year's account and made serially, one below the other, in column 6 grouped according to the year for which the arrears are due. In the case of such expired leases columns 7 to 9 need not be filled in. The demands for current leases and the dates on which payments on account of them are due shall be entered in columns 7 and 8 respectively. Every entry in columns 6 and 7 shall be verified by the Chairman, who shall put his initials with date in column 10 against each entry.

9. All realizations and their dates shall be entered in columns 11 and 12 respectively, and all sums so realized shall be credited direct to "pound receipts" in column 3 of the cash-book. The entries in column 11 shall be compared by the Chairman with the cash-book and he shall place his initials in column 15.

10. When a lease is cancelled for any reason and the pound re-sold or abolished, the demands up to date shall be worked out and compared with the collections up to date.

Receipts.

11. For all sums received by the Union Committee, except those on account of the rate imposed under section 118C of the Act, a receipt in Form No. 9 duly signed by the Chairman shall be granted to the payee.

When the work is carried out under the supervision of an officer of the District or Local Board, the certificate should be signed by that officer. In other cases, it should be signed by a member of the Union Committee authorized by the Committee to do so on its behalf in each case. At the time of making payment in cash or of issuing a cheque, the Chairman of the Committee shall take a receipt, stamped, if necessary from the payee, and endorse the bill with the words "paid Rs. only (Rupees) $\frac{\text{in cash}}{\text{by cheque No.}}$ " the amounts being written in words as well as in figures. [NOTE.—Union Committee works may be carried out either by a contractor under the supervision of a member or officer of the Union Committee or of an officer of the District or Local Board, or directly by a member of the Union Committee, provided that such member does not directly or indirectly participate in the profits of the work or is not concerned or does not participate in any contract connected with the work]

14. If any work is to be carried out by a member of a Union Committee or by a contractor under the supervision of a member of a Union Committee, advances may be paid, with the sanction of the Union Committee, either to such member or to the contractor. The person to whom an advance is paid shall keep proper accounts of the amount advanced, and shall submit an account duly supported by vouchers to the Union Committee within three months from the date of the advance. No fresh advances shall be paid until the previous advance is adjusted.

15. As soon as an advance is paid under rule 14 the Chairman shall enter it as a payment, under the head "advances," on the payment side of the cash-book (Form No. 3 or 2 according as the Union Committee has an account with the local Treasury or not) and make the necessary entries in the payment side (columns 1, 2, 3 and 12 in Form No. 2, or 1, 2, 3 and 13 in Form No. 3, as the case may be). The payment orders shall be used as vouchers and numbered serially and the serial numbers entered in the payment side (column 3). The advance shall also be entered in columns 1 to 4 on the debit side of the Advance Register (Form No. 10), and for each person to whom advances are given a separate account shall be opened in the register. Advances paid to the same person for more than one work shall be entered as separate entries both in the cash-book and in the Advance Register. When advances are recovered either in cash or by work bills, necessary entries shall be made in columns 1 to 4 on the credit side of the Advance Register. If the advance is recovered in cash, it shall be entered as "advance recovered" on the receipt side of the cash-book (Form No. 2 or 3). If, however, the recovery is made by work-bill, the amount shall, in the first instance, be posted in the Adjustment Register (Form No. 11), not only in column 4 as a credit, but also under the appropriate head on the payment side (columns 6 to 10). This account shall be submitted the same day it is closed to the District Board direct after actual counting of the closing balance or comparison with the Treasury or Savings Bank pass-book. The vouchers should be forwarded with the account.

17. An abstract of annual expenditure prepared in Form No. 12 together with a statement of the charges for establishment (if any) shall be published not later than one month after the close of the year to which it relates by posting up a copy signed by the members of the Union Committee at the office of the Union Committee or in any neighbouring *hát* which is generally frequented by the villagers belonging to the Union.

Directions for steam vessels entering the port of Bombay.

No. 166 (second publication).—The following particulars, etc., relative to the above, issued by the Director of the Royal Indian Marine, Bombay, in Notice to Mariners (No. 75M. of 1920), are republished :—

Steam vessels of any draft entering Bombay Harbour either by day or night should experience no difficulties although the Pilot Schooner has been brought in from her original station and is now anchored off Sunk Rock, they should attempt always to make the Bombay Floating Light moored in the fairway (Lat. 18° 50′ N., Long. 72° 44′ 30″ E.), thence steer a course to bring Prongs Reef Buoy in transit with Sunk Rock at a distance of not less than one mile, then the course should be altered direct for the Pilot Schooner or one mile east of Sunk Rock. During the Monsoon when the weather may be such as to make it difficult for the Mariner to distinguish the more conspicuous marks or during the cold weather months when great smoke haze lies over the town and surrounding country, the best time to make the Port is an hour before sunrise, the lights then being visible will enable the Mariner to obtain an accurate position, and it should be remembered that the Light Vessel is fitted with a submarine bell, also that both Prongs Reef and Thull Shoal are marked by Gas Buoys.

2. Pilotage is compulsory; no vessel is allowed to proceed north of Sunk Rock; Naval Ships, Royal Indian Marine Ships and other Government Vessels being exempted. All vessels making the Port should show their nationality and name to Prongs Light House as soon as possible on which Light House a Watch is kept night and day.

WIRELESS METEOROLOGICAL INFORMATION TO AND FROM SHIPS AT SEA.

General Remarks.

No. 156 (third publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 703 of 1920), are re-published :—

Former Notice.—No. 478 of 1920 (*This Office No. 122 of 1920*); hereby cancelled.

1. It is earnestly hoped that all concerned will assist in making the wireless meteorological service a success Negotiations are now in hand to extend and unify the system of collecting weather data by wireless from ships at sea all over the world, and at the same time to organise the free transmission of weather bulletins from a sufficient number of wireless stations to admit of ships being constantly supplied with reliable weather reports and forecasts wherever they may be.

2. It should be borne in mind that the needs of ships at sea in regard to information regarding the weather will march hand in hand with the requirements of aircraft. The importance of this service will therefore be constantly increasing, and its success or failure will largely depend upon the co-operation of ships at sea in providing the data without which accurate forecasting is impossible. The matter does not depend solely upon the efforts of the ships selected to furnish the data. The essence of success lies in rapidity in passing such data by wireless from the ship to the coast station, and thence to the central meteorological office. It follows, therefore, that all ships not taking an active part in supplying data should use the greatest care not to interfere with the transmission of the wireless messages to the shore.

3. The following particulars refer to the scheme now being undertaken by the British Meteorological Office. This Notice will, however, be subject to revision from time to time, and endeavours will be made to include in each revision all information available to date of the weather bulletins issued by the wireless stations of the world. Earnest endeavours are being made to obtain international agreement as to the form of these weather bulletins and to the methods and times of transmissions. It is hoped that the messages will eventually all be made in an international code at fixed times, so arranged that a ship with only one wireless operator will be able to read them. A similar scheme for time signals is being evolved.

Collection of Weather Data from Ships.

4. Certain ships are being asked to supply data regularly three times a day and in addition to the regular observations, which are taken at 0100, 0700 and 1300 Greenwich time and sent as soon as possible to Malin head (GMH) or Valentia (GCK) coast stations, these ships may, on request from either of these coast stations, send special data messages at other times.

5. Precise instructions as to the procedure for ships which intend to send a data message, together with the necessary code, will be issued at an early date.

Issue of Weather Bulletins to Ships.

6. A wireless *weather bulletin* may contain both or either of the following :—

(*a*) A *weather report*, which is an official statement of existing weather conditions; and-or

(*b*) A *weather forecast*, which is an official opinion of probable future weather conditions.

7. The accompanying schedule of wireless weather bulletins is intended to provide, in a form suitable to give all information required by the wireless operator, a complete and up-to-date list of all weather bulletins transmitted

at fixed times by wireless stations throughout the world. The same information will be found in detail in the Sailing Directions and in the International List of Radiotelegraph Stations (the Berne List).

8. The times given in the third column of the schedule are expressed in the 4-figure notation employed for signalling during the war. The term "G.M.T." here means the civil mean time of the meridian of Greenwich, with the day commencing at midnight and the hours reckoned from 00 to 23.

9. Operators are reminded that Article 45 of the International Service Regulations imposes the general obligation of not interfering with reception of weather bulletins by other ships.

10. Certain other stations not shown in the schedule supply weather bulletins *on demand*, generally at reduced charges. Particulars will be found in the Berne List.

RESOLUTION ON THE ANNUAL REPORT ON THE POLICE ADMINISTRATION OF THE TOWN OF CALCUTTA AND ITS SUBURBS FOR THE YEAR 1919.

GOVERNMENT OF BENGAL.

POLITICAL DEPARTMENT.

Police.

CALCUTTA, THE 26TH JUNE 1920.

RESOLUTION—No. 2682P.J.

READ—

The annual report on the Police Administration of the town of Calcutta and its suburbs for the year 1919.

THE outstanding feature of the Police Administration of Calcutta is its complexity. Calcutta is a great and wealthy city, with many densely populated areas where modern conditions of police and traffic control are still impossible, a great port bounded by a long stretch of open river, the centre of a very important industrial area, a resort of foreigners and of people from all parts of India, and an important political focus. Its policing constitutes

a problem in itself, distinct from that afforded by any other part of the Presidency, and it becomes yearly more important that the full meaning of these facts should be realised. Calcutta has attained the status of a huge modern city and is still growing. It began with a police administration based on that in force in rural and urban Bengal: it has steadily outgrown the potentialities of such a system, and this growth has been met by a series of adaptations that have approximated more and more to the model set by European cities of similar size and similar activities. There can be only one policy for the future, and that is the policy of definitely casting the administration into what may be called the metropolitan mould. This will mean increasing specialisation, increasing subdivision of activities under separate departments, and the employment more and more of men with special qualifications. Such an evolution will inevitably be accompanied by a growth of expenditure.

Apart from this internal process towards increasing cost, there is the external pressure exerted by the economic conditions of Calcutta. This pressure has been very noticeable during the year under report. It has become clear, for instance, that the housing of officers in hired houses (the total rents paid to private owners rose to Rs. 3,10,490) is uneconomical and administratively most undesirable. The Commissioner regards a loan as the only solution of the difficulty, and as it is obviously impossible to finance these building schemes within a reasonable time out of revenue, careful consideration will be given to his proposals when received. But besides capital outlay it is clear that the improvement in the pay of the lower branches of the force has not kept pace with the increase of economic pressure, and the result is seen in the difficulty of recruitment and in the tendency noticed by the Commissioner to a lower morale. Government have received proposals from the Commissioner to meet these difficulties and they are under consideration. As the cost of the administration thus increases the question must soon arise, whether Calcutta should not be called upon to pay more directly than it at present does for the service which administers and protects it.

2. The office of Commissioner of Police was held throughout the year by Mr. R. Clarke, C.I.E.

3. Recruitment fell short of vacancies. The hope that, as army demobilisation progressed, recruitment would become easier, was not fulfilled; the high cost of living in Calcutta and the inadequacy of the pay and prospects offered are given as the reasons for the failure.

4. Crime in the aggregate increased by about 10,000 cases, the increase falling mainly under special and local laws. The general prevalence of industrial unrest produced a number of strikes, none of which, however, was attended by any disturbance of the peace.

The old question of the control of the unruly element known as *goondas* again came to the fore. The difficulties of holding these hooligans in check are referred to by the Commissioner: prosecutions are impeded by the reluctance of parties to give evidence for the prosecutions; the ordinary bad livelihood sections of the Code are in some ways inapplicable to a large town, or at least it is not easy to enforce them; the areas most preyed upon afford facilities to criminals and it is hard to patrol them. An effective remedy would lie in an executive power to remove from the town those desperate characters who endanger the public peace in this way, and representative opinion is being consulted as to this or any other solution which may be feasible.

5. A riot necessitating the employment of armed force occurred in the northern part of the city on the 11th and 12th April. It was a sequel to the *Satyagraha hartal* observed in the city on the 6th of that month, and was an echo of more serious disturbances which occurred elsewhere in the country. Its operations were fortunately restricted, and order was promptly restored by measures which the general sense of the public admitted to have been characterised by forbearance and moderation.

6. The rapid rise in the number of motor vehicles since the armistice and a steady increase in the number of traffic offences necessitated an improvement in the method of traffic control. Sanction was obtained during the year to the centralization of a control hitherto divided between the Corporation and the Police under a specialised Police Department designated the Public Vehicles Department, having at its head a Deputy Commissioner of Police responsible solely for this branch of control. The officer designated to hold charge of the department was placed on special duty in London to study the details of traffic control in that city. He has now taken charge, and an improvement is looked for in this important branch of public convenience.

7. The Fire Brigade maintained its record of good work, and coped with fires which involved property of considerably higher value than in the previous year.

8. The general conduct of the police was good, and the Governor in Council, looking upon the administration as a whole, congratulates the force and in particular Mr. Clarke on a year's record of efficient work carried out with a depleted cadre. To all the officers whom Mr. Clarke has commended for good work, and to the force as a whole, the Governor in Council accords his thanks.

Order.—Ordered that a copy of this resolution be forwarded to the Commissioner of Police, Calcutta, the Chief Presidency Magistrate, Calcutta, and the Commissioner of the Presidency Division for information.

Ordered also that a copy of the resolution and a copy of the report be submitted to the Government of India in the Home Department.

Ordered also that the resolution be published in the *Calcutta Gazette*

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 24th June 1920.

Summary.—Excepting heavy showers in some North Bengal districts, light to moderate rain fell throughout the province. It has benefited the standing crops and helped the field operations generally. More rain, however, is needed especially in Western Bengal districts. Preparatory tillage for winter paddy is proceeding. Harvesting of jute and early autumn paddy and transplanting of winter paddy seedlings have commenced in low-lying tracts of Eastern Bengal. Weeding of autumn paddy and jute is still in progress in Western Bengal. The average price of common rice for the province has risen by about 1·34 per cent. as compared with that of the previous week.
